Certificate of Program Participation

is proudly presented to

Anahit Tumasyan

for successfully completing the **AI Program** at Picsart Academy, fulfilling all academic and practical requirements, including the final project, and demonstrating outstanding performance.

During the program, the participant mastered both the **Machine Learning and Data Science** paths.

01 / OCT / 2026

Gurgen Khostikyan
Picsart Academy Director

Course Program Includes

AI Fundamentals - Math

- Computer Architecture Basics
- Python Programming Essentials
- Introduction OOP Concepts
- Sets and Operations on Sets
- Sigma Algebra of Sets
- Cartesian Product of Sets
- Relations and Equivalence
- Linear Systems of Equations and Methods

AI Core Mastery - Math

- Introduction to AI and Its Applications
- Numerical Computing with NumPy
- Data Manipulation with Pandas
- Data Visualization & Exploratory Data Analysis (EDA)
- System of Vectors
- Linear Subspaces and Dimensions
- Complex Numbers
- Normalized Linear Spaces and Scalar Products
- Matrix Rank and Properties
- Linear Mappings
- Gradient Descent
- Dimensional Analysis
- Probability Theory
- Calculus

Machine Learning

- Supervised Learning
- Unsupervised Learning
- Deep Learning Fundamentals
- Deep Learning in Computer Vision
- Generative AI in Computer Vision
- Natural Language Processing (NLP)
- Multi-Modal AI
- Capstone Project and Final Review

Data Science

- Foundations of Data Science and AI
- Data Wrangling and Cleaning
- Ensemble Learning & Boosting
- Unsupervised Learning & Anomaly Detection
- Deep Learning and Big Data Techniques for Data Science
- Specialized Data Science Applications and Capstone Project

Where Students Enter and Heroes Leave
